Some parents have had trouble getting in PowerSchool to check your child/children grades, I hope this helps you and if not please feel free to call me or send me an e-mail and if I can't help you, I will reach out to PowerSchool.

To set up PowerSchool access as a parent, get your student's **Access ID and Password** from the school, go to your district's PowerSchool portal, click "Create Account," fill in your info, link students using their IDs, and then verify your account via email. You'll use this new login to view grades, attendance, and assignments for your children.

Before You Start: Step-by-step Set Up

Find the Portal: Navigate to your school or district's PowerSchool Parent Portal

1. **Start Account Creation:** Click the **"Create Account"** or **"Create Parent Account"** button.

2. **Enter Your Info:** Provide your name, a personal email (not a district one), and choose a username (your email is often best) and a strong password.

3. **Link Students:** Under "Link Students to Account," enter the Access ID, Access Password, and your relationship (e.g., Mother, Father, Guardian) for each child. These are case-sensitive.

4. **Submit & Verify:** Click "Enter," then check your email for a verification link from PowerSchool and click it to activate your account.

PowerSchool is a leading cloud-based student information system (SIS) and educational technology provider for K-12 schools, designed to manage student data, attendance, grades, and schedules. It offers a centralized, web-based platform with portals for administrators, teachers, parents, and students to track performance, communicate, and streamline school operations.

Key features and components of PowerSchool include:

- **Student Information System (SIS):** A secure, centralized platform for managing student records, attendance, and grades.

- **Parent and Student Portals:** Online access to real-time data on grades, attendance, assignment, and teacher comments.

- **Schoology Learning**

  :

  A Learning Management System (LMS) for delivering curriculum, collaborating, and managing digital assignments

  Enrollment: Streamlines the registration process with digital forms.

- **Special Programs:** Tools for managing Individualized Education Programs (IEPs), 504 plans, and other compliance-based programs.

- **PowerBuddy:** AI-powered, personalized assistants for students, teachers, and data analysis.

  PowerSchool is used by schools to manage administrative processes, such as HR, finance, and curriculum, aimed at improving student outcomes and reducing educator burden.
